

# SGA 2023

Visit us in Zurich in 2023 • 28th August – 1st September 2023

## **Post-conference excursion FT2 Mineralizations in the Schwarzwald (Black Forest) and Kaiserstuhl, Germany**

Start: 05.09. 9 am, Untermünstertal train station, Germany  
End: 06.09. 6 pm, Riegel (Kaiserstuhl) train station  
Duration: 2 days in the field  
Participants: max. 16  
Leaders: Benjamin Walter (KIT, Germany)  
Price: 100 CHF/person

The excursion fee covers transportation by minibuses, accommodation in Neuenweg, barbecue in the evening

The first day of the excursion (05.-06.09.23) will focus on unconformity-related hydrothermal vein type deposits in the Schwarzwald mining district with focus on fluorite veins. We will visit the Teufelsgrund underground mine and further outcrops. The second day will be in the Miocene Kaiserstuhl carbonatite complex to visit the Nb-REE mineralized carbonatites. The excursion will start at the train station Untermünstertal the 5<sup>th</sup> of September at 9 am. The excursion ends at the train station Riegel (Kaiserstuhl) the 6<sup>th</sup> of September at 6 pm.

### **Excursion program**

05.09. Tuesday: Meeting at the train station Untermünstertal (1 hr)  
Visit to hydrothermal vein deposits  
Overnight stay at Wanderheim Belchenblick  
06.09. Wednesday: Visit to Kaiserstuhl volcanic complex, carbonatites and ore mineralization
